Client: **Minnesota DOT**  
**2900 48th Street NW**  
**Rochester, MN 55901**

The I-90 Dresbach Bridge spans the Mississippi River between Dresbach, Minnesota and La Crosse, Wisconsin. The structure consists of a series of long-span concrete segmental boxes and sculpted concrete piers. The bridge is understated, elegant and low profile to blend in with the sensitive landscape that includes several scenic bluffs and protected wetlands near the river. The bridge is a new gateway between the two states and provides added capacity and safety while also enhancing the river environment.
