

Miguel Rosales

President, Rosales + Partners

Miguel Rosales is the president and principal designer of Rosales + Partners with over 30 years of experience as a leading bridge architect and designer for major infrastructure projects in the U.S. and abroad.

Prior to forming Rosales + Partners, he served as the lead architect and urban designer for the Leonard P. Zakim Bunker Hill Bridge. He helped to develop the innovative cable-stayed bridge and guide it through a complex public participation process. His major completed bridge projects include the Woodrow Wilson Memorial Bridge over the Potomac River, Washington D.C.; the Phyllis Tilley Memorial Pedestrian Bridge over the Trinity River, Fort Worth, TX; the Liberty Bridge, Greenville, SC; Puente Centenario over the Panama Canal in Panama and the Christina and John Markey Memorial Pedestrian Bridge, Revere, MA.

His recently completed projects include the restoration of the historic Longfellow Bridge, Boston, MA, and the Frances Appleton Pedestrian Bridge in Boston, MA.

Mr. Rosales is recognized internationally as an expert on bridge aesthetics and design. He received a Diploma in Architecture from the Universidad Francisco Marroquin in Guatemala City in 1985. In 1987, he completed a Master of Science in Architectural Studies at Massachusetts Institute of Technology (MIT). Mr. Rosales has received grants from the NEA, AIA/AAF, and MIT to research bridge and infrastructure design and is the recipient of several bridge design awards.

He is noted for his practical ability to balance technical and aesthetic principles, conceiving cost-effective architectural bridge enhancements, and delivering iconic bridges that have become symbols of identity and community pride.
